MARGARINE

BRAINSTORMS

Thursday night was the second time in less than a year I have stood by and watched our local volunteer firemen with egg on the State of Alabama, to the detriment of other areas. I know their face as they attempted to put out a fire but had no water. fall it was a water line on the Curtis Road complete with fire plugs but alas, no water. This time it was a rural fire at Burin Bowers Store and after the firemen unrolled their hoses and braced to counter the pressure from the force of the water alas again there was no water in the fire truck eight miles from

As with the Curtis Road case, it seemed useless to try finding anyone to point a finger at and say "you did it". Firemen blame others and the others deny any knowledge of the matter. It was discovered Friday however that a small hole had been knocked in the water tank on the NO. 2 fire truck and the water had leaked out. This has been repaired and both fire trucks are working fine.

The dry fire plug incident resulted in periodic inspections of all fire plugs in Elba. The episode Thursday night will probably result in a more complete check list by the fire department to insure all equipment is in good working order. Fire Chief Charles Cox and Mayor Ziglar have already begun some preliminary work on this matter. Apparently first reports that the city crows used the terminal content of the content of the content of the city crows used the content of the content of the content of the city crows used the content of the city crows used the content of the content of the city crows used the city crows and the city crows are content of the city crows and the city crows are content of the city crows are city crows as a content of the city crows are city crows as a city crows a content of the city crows are city crows as a content of the city crows are city crows as a content of the city crows are city crows as a city crows a content of the city crows a city crows a content of the city crows a city crows a content of the city crows a city crows he city crews used the trucks in their work and failed to refil

Fire Chief Cox reported that standard procedure when the city needed the water pressure and hoses that only the fire trucks can provide, either he or a fireman he assigns to the project Wholehearted Cooperation akes the truck to the work area and stays with it until the job is complete and returns the truck to the fire station.

Now that our feet are wet, (no reflection to the empty truck) following his swearing-in, we may as well wade off into deep water and with some direct. President Gerald Ford said we may as well wade off into deep water and with some direct that he was acutely aware of the criticism of the fireman. Since we are not experts and they fact that he had not been elethemselves are all volunteering to help a neighbor in need, we cted by secret ballot. But tone down our criticism to "observations" for them to consider even though he has never run

We use for an example the Bowers Store fire. Picture if you even though he has never unwill the fire has passed its peak. The fire trucks have made will the fire has passed its peak. The fire trucks have made given national nominees during several trips to get more water. People and vehicles are all a political convention, Preseveral trips to get more water. People and vehicles are all a political convention, Prearound in the dark (forget that most have no business there, for this case just remember THEY ARE THERE). A tre truck comes back with another tank of water and drives into the area very fast, assuming (1) none of these vehicles will move (2) none of the fireman or bystanders in the dark will walk out in front of the truck (3) The situation is the same as when the fireman left for more water and the truck is safe in the same place (4) the brakes will hold and he won't meet our first three hazards on he other side of his planned stopping place.

As a member of the Senate Rules Committee which, just

the trama of such situations causes them to save seconds in ways that could destroy even more lives and property. Think about it - held hearings on Mr. Ford's is the life of a reighbor who walked was to save seconds in ways. is the life of a neighbor who walked up to offer any help or may-qualifications for the Vice Prebe motorists who stopped to avoid getting in the way of a fire-man, or the life of another fireman worth the split second of extra speed to save the charred half of a burning rafter? We

about his health, his finances Pres. Ford has already crossed wires with someone mighty his personal friendships, his important -- me! Seriously, I disagree completely with his stand innermost family secrets -- all complete amnesty unless we get the OK of those who served of which he answered openly in their place and were either killed or maimed for life in the and forthrightly. I recall that process. However if he intends for them to serve in some other I asked him his views on forgovernment service for several years -- something like helping ced busing of school children, he multitudes who can't help themselves, or digging ditches for and he stated that he was opsome government project -- then I may reconsider, but then maybe posed to it. And I asked him I will still want approval from those bled on the field. if he ever became President,

go to the feed lot will go in at heavier weights and stay there for shorter periods of puts Alabama and the Southeast in a more favorable posi-tion than other areas of the county in that we have the natural . resources to produce large quantities of forages at relatively low costs. Feed grains are too expensive to pu lightweight calves and calves to heavier

weights on forage will likely become a more important phase of the beef industry. Cattle producers of Alabama nould study the possibilities of incorporating annual winter grazing crops and silage production into other crop rotation systems for use in growing calves to heavier wei-

RYE SEED

There is a new law on the books prohibiting the sale of unadapted rye seed. The State Board of Agriculture met June 28th and adopted two regulaions pertaining to rye seed. Rye seed produced in a orthern state or having a northern origin shall not be sold

Back to Class

We get a lot of questions about budding and grafting fruits and nuts. This is a fascinating hobby for a lot of people throughout the state. We have a new bulletin which gives excellent information plus pic tures and diagrams on budding and grafting. We will be glad o send you a copy of this We also have a revised leaflet entitled "Dwarf Fruit Tree Selection and Care." Many people in Coffee County could plant certain varieties of apple and peach trees and expect good results. Let me point out quickly that people who plant peach and apple trees have their work cut out for them if they expect to keep productive trees over a period of time. We have all kinds of

information on fruit and nu trees, and we will be glad to send you complete information Brockton.

POEM

He's always there in time of need, Reach out your hand; give Him the lead. Look up for Him; He's all around. Look up to Him; He won't let

He has given you help throughout your life. He has lightened your load of pain and strife.

When life gets too hard to bear, Reach out for Him; He's always there.

He understands mistakes you've made. Open up your heart when things are looking down; He'll come and help you stand your ground.

He'll help you in every way. But you must have faith, open your heart and believe; You have to give as well as receive.

Kellev also noted that the goose season will open on November 12 and continue through January 20. The bag limit on geese is five a day to include more than one Canada goose. These dates will be in effect for all of Alabama with he exception of the Pickwick, Wilson, and Wheeler Reserwhere the season will be Dec-ember 4 - January 20 and in Barbour and Russell Counties, where there will be no open Game and Fish Division

Director Charles Kelley stated that Alabama has adopted the oint system in lieu of the re ular bag limit after careful onsideration of both methods of determining daily and ession bag limits. He stated that Louisiana and Florida have utilized the point system during the past season and duck hunters in those

The point values for follows: The canvasback and redhead count 100 points each: hen mallard, woodduck, black duck and hooded mergan ser count 90 points each: the mottled duck count 35 points each. All other species of ducks count 15 points each. The daily bag limit is reached when the point value of the last bird taken added to the sum of the point values of the other birds already taken that day equals or exceeds 100 points. The possession limit is the maximum number of birds of species and sexes which could have legally been taken in two days. Kelley added that Alabama chose the point system in order

imit by selectively shooting only certain species and exes. Also by using the point system it was possible to exhe duck season eight Alabama will again have a special nine day teal season,

ELBA POLICE under the direction of Chief Johnston are shown dumping illegal booze into the gutter one day last week. Included in the dumping was shine, beer and some whiskey discribed by officers as "cheap stuff". Helping the local officers is Andy Garrow, Police Chief at the town of Coffee Springs and a former Elba policeman.

37¢ MARGARINI

As with the Curtis Road case, it seemed useless to try finding anyone to point a finger at and say "you did it". Firemen blame others and the others deny any knowledge of the matter.

It was discovered Friday however that a small hole had been knocked in the water tank on the NO. 2 fire truck and the water had leaked and the water had leaked out. This has been repaired and both fire trucks are

The dry fire plug incident resulted in periodic inspections of all fire plugs in Elba. The episode Thursday night will probably result in a more complete check list by the fire department to insure all equipment is in good working order. Fire Chief Charles Cox and Mayor Ziglar have already begun some preliminary work on this matter. Apparently first reports that the city crows used the trucks in their work and failed to refill the city crews used the trucks in their work and failed to refi

Fire Chief Cox reported that standard procedure when the city needed the water pressure and hoses that only the fire trucks can provide, either he or a fireman he assigns to the project takes the truck to the work area and stays with it until the job is complete and returns the truck to the fire station.

In his inaugural address the Comparation

Now that our feet are wet, (no reflection to the empty truck) following his swearing-in, President Gerald Ford said we may as well wade off into deep water and with some direct that he was acutely aware of the tone down our criticism to "observations" for them to consider even though he has never run

We use for an example the Bowers Store fire. Picture if you dergone the public exposure will the fire has passed its peak. The fire trucks have made given national nominees during several trips to get more water. People and vehicles are all a political convention, Preseveral trips to get more water. People and venicles are all a political convention, Prearound in the dark (forget that most have no business there, sident Ford's political philosofor this case just remember THEY ARE THERE). A fire truck phy, his financial status and comes back with another tank of water and drives into the area every other aspect of his privery fast, assuming (1) none of these vehicles will move (2) none of the fireman or bystanders in the dark will walk out in front of the truck (3) The situation is the same as when the fireman left for more water and the truck is safe in the same place (4) the brakes will hold and he won't meet our first three hazards on he other side of his planned stopping place.

As a member of the Senate he other side of his planned stopping place.

These men are dedicated to saving lives and property but maybe Rules Committee which, just the trama of such situations causes them to save seconds in ways that could destroy even more lives and property. Think about it is the life of a neighbor who walked up to offer any help or may be motorists who afformed to avoid action in the motorists who afformed to avoid action in the motorists. be motorists wno stopped to avoid getting in the way of a fire-man, or the life of another fireman worth the split second of extra speed to save the charred half of a burning rafter? We to the thoroughness of the pub-

Pres. Ford has already crossed wires with someone mighty his personal friendships, his important -- me! Seriously, I disagree completely with his stand innermost family secrets -- all on complete amnesty unless we get the OK of those who served of which he answered openly in their place and were either killed or maimed for life in the and forthrightly. I recall that process. However if he intends for them to serve in some other I asked him his views on forgovernment service for several years -- something like helping ced busing of school children, the multitudes who can't help themselves, or digging ditches for and he stated that he was opsome government project -- then I may reconsider, but then maybe posed to it. And I asked him I will still want approval from those bled on the field.

PEANUT HARVESTING

Sometime after the middle of August Coffee County peanut growers usually begin thinking about harvesting.
Trips will be made to the peanut field more frequently to pull up vines not only to examine them but to check on the maturity of the nuts. Growers who are using the newer and better fungicides and applying them properly are able to keep vines in shape longer. This means that the peanuts can remain in the

ground longer and mature Anderson Peanut Company in Opp tells me that they usually get their first peanuts of the season from western Coffee County, and in most Mrs. Fleenor is not happy Channel catfish is one of the cases these peanuts are imwithout just cause - as you may most desirable species of fish mature and are not ready for see the string of catfish she has to raise commercially. SCHOOLS ANNOUNCE FREE MEAL POLICY

The Elba City Board of Education and The Coffee County Board of Education recently announced the free meal, free milk and reduced-price meal policy for school children unable to pay the full price of meals served in schools under the National School Lunch, School Breakfast and Special Milk Pro-

size income criteria for use in determining eligibility.
Children from families whose income is at or below those

shown are eligible for free meals, free milk and/or reducedprice meals. In addition, families not meeting this criteria but with other unusual expenses due to unusually high medical with a letter to parents. Additional copies are available at the principal's office in each school. The information provided

on the application will be confidential and will be used only for the purpose of determining eligibility. Applications may be submitted any time during the school year.

A complete copy of the policy is on file in each school and in the office of each respective board of education where it may be reviewed by any interested party.

benefits. If a family has such children living with them and wishes to apply for such meals for them, they should contact the school.

The bids were as follows: Dismuke Ford of Enterprise, \$4,868.64; Cook Chevrolet, of In the operation of child feeding programs, no child will be discriminated against because of his race, sex, color, or national origin.

Elba, \$4,567.11; and Dowling Truck and Tractor Co. of Enterprise, \$3,800.00. The com-

In certain cases foster children are also eligible for these

national origin.

Under the provision of the policy the principal of each school will review the applications and determine eligibility.

If a parent is dissatisfied with the ruling of the official he mission awarded the bid to Dowling Truck and Tractor of Enterprise on a motion by Don Smith seconded by O. V. Watnow Smith seconded by O. V. may make a request for a hearing to appeal the decision, either orally or in writing to Mr. Elmer Taylor, ers. All members City Superintendent of Education for the City of Elba, or favor of this motion. but with other unusual expenses due to unusually high medical expenses, shelter costs in excess of 30 per cent of income, special education expenses due to the mental or physical condition of a child, and disaster or casualty losses are urged to apply.

They may do so by filling in the application forms sent home

City Superintendent of Education for the City of Elba, or the county Superintendent of Education for the County of Education for the City of Elba, or the County Superintendent of Education for t Elba, Alabama, 36323. Hearing procedures are outlined in the policy.
